Percentage : 90.72

WORK EXPERIENCE

Application Engineer Intern | Flipkart - Cleartrip

02/2024 – 07/2024

Backend Developer

Bengaluru, India

- Hotel Booking Reconfirmation flow :
 - Built a reconfirmation flow only for directly contracted hotels using Java Spring boot.
 - This leverages the Salesforce system in order to connect the Cleartrip Agents with the hoteliers using REST APIs.
- Worked with Product manager on Ratings and Reviews :
 - Making a report of required data of ratings and reviews (RNR) for city wise.
 - Creating a report of an excel for each requirement and each city separately.
- API testing using Karate Framework :
 - Testing to check API status and responses using karate framework
 - Generates detailed HTML reports with passed/failed scenarios, response details, and error messages
- Shadow testing - testing of API responses of old flow and new flow.

SKILLS

Programming Languages : C,C++,Python, Java, Object oriented programing.

Web Technologies : HTML, CSS, JavaScript, React.js, Node.js, Spring boot.

Databases: MySQL, MongoDB.

Tools : Git.

PROJECTS

Bitemeals 🌐

A food order website | React js, Spring boot, Mango DB

- Developed a full-stack web application for a food ordering platform using React.js, Spring Boot, and MongoDB. This platform enables users to browse menus, place orders, and manage their cart, with secure authentication and user-friendly interfaces.
 - The application features a modern, responsive design built with React.js for the frontend, and it is integrated with a Spring Boot backend to manage user data, authentication, and order processing.
 - Utilized MongoDB for persistent data storage, ensuring scalability and reliability.

INTERESTS

Cricket and Kabbadi | Listening Music | Watching movies & Playing games

ACHIEVEMENTS

- Participated in Rural IT Quiz competition in 2018 at state level.
- Participated and Runner up in Cleartrip premier league (season-3).
